

Installation & Assembly

- 1 Open the Plejd app and select Add device.
- 2 Press the rotary button on WRT-01 to activate it (active for 60 seconds) and follow the installation steps.
- 3 Loosen the screws for the center plate. Mount the WRT-01 with tape or screw.
For tape: check range by testing function in the intended location before taping the WRT-01 in place.
- 4 Mount cover frame, screw the center plate into place and press the rotary button into place.
